

Accelerating Innovative Solutions

Fact Sheet

About Velocity

- Velocity is the new industry leader in state-of-the-art tool design and manufacture, injection molding, precision machining and contract manufacturing for the medical device market, building on the long history and impressive track record of its portfolio companies.
- Velocity is the new parent company that will now represent the entire family of brands and the full range of services offered under one umbrella, which includes Teamvantage, MMD Medical, Custom Mold & Design, CMD Precision Manufacturing Group, and Paradigme Engineering.
- Headquartered in Forest Lake, this Minnesota-based company provides solutions for the entire United States.
- Velocity is driven by its core values:
 - Collaboration
 - Results-Driven
 - Continuous Improvement
 - Integrity
 - Customer Satisfaction
- Velocity's team helps customers accelerate time-to-market by reducing risks through deep knowledge and extensive services in the medical device industry.

Facts and Figures

- Velocity companies have served the medical device and technology, aerospace and defense, and industrial markets for more than 50 years.
- Velocity's centralized services enable streamlined support and continuity for our customers.
- Over 200 years of collective experience and industry knowledge.
- More than 14 years of experience per tool maker on average at Velocity.
 - More than 60% have at least 10 years of experience.
- More than 9 years of experience per engineer on average at Velocity (including design, manufacturing, process and quality).
 - More than 36% have at least 10 years of experience.
- More than 7 years of experience per precision machinist on average at Velocity.
 - More than 25% have at least 10 years of experience.
- 130 companies served.
- 1450 unique part numbers produced per year.
- Over 130 million parts shipped per year.
- More than 175 molds built per year.
- Low to high volume production capabilities to scale product growth.
- Manufacturing cells equipped with state-of-the-art technology.
- 90 injection molding machines including Sodick Plushtech, Nissei, Toshiba and Arburg.

Accelerating Innovative Solutions

- 52 CND Swiss Machines and CNC Turning Centers.
- 28 wire and sinker EDM machines.
- 44 CNC machining centers, including 10 Yasads.
- More than 250,000 square feet of production capacity.
- Class 7 & 8 clean rooms.
- White room space available for growth at all locations.

Key Services

Velocity provides fully integrated, end-to-end solutions to address all aspects of the process, from design support to manufacturing. This unified brand approach helps simplify vertical integration efforts for customers and provides a breadth of expertise and capacity for complex projects, specifically:

- Design support and engineering
- Tool design and manufacture
- Injection molding
- Precision machining
- Quality assurance
- Contract manufacturing
- Finishing and assembly
- Packaging
